

Executive Summary

Financial Tyranny

People worldwide of all income levels work hard trying to create lasting wealth for their families and posterity. One of their biggest challenges is in protecting their savings from inflation, restrictive controls and even confiscation in some parts of the world. The fiscal irresponsibility of most governments has people becoming increasingly concerned with the stability and safety of their financial systems.

There are alarming reports around the world of governments and banks becoming insolvent and seizing funds from their customer's personal and business accounts. The value of national currencies continue to plummet due to out of control inflation, which itself is the result of rapidly expanding currency supply.

Empower the People

Imagine for a moment, if the people could control their own finances, without oversight from governments or banking institutions. Imagine a system that ensures complete transparency of all transactions by recording them in a public ledger for all to see. Imagine a system that allows anyone to send money to anyone else almost instantly, anytime, anywhere, for anything, with very low fees.

This peer-to-peer electronic cash system was invented in 2009, and exists today as a solution to the problems described above. The Bitcoin technology replaces banks and other financial intermediaries by verifying transactions through the consensus of a decentralized network of cooperative computer systems. The money supply cannot be wildly inflated by overzealous politicians, and the system cannot be shut down due to its decentralized architecture based on the Internet. It truly is the people's financial system, referred to as 'cryptocurrency'.

Nexxus Partners - Cryptocurrency

As big as the personal computer and Internet technology waves were, cryptocurrency is much larger; a revolution to empower people to control their own financial systems. Cryptocurrency technology is still in its infancy with very few people fully understanding the power and potential of cryptocurrency.

A huge opportunity exists as the unstoppable cryptocurrency movement eventually crosses the chasm to mainstream adoption. New emerging technologies provide the greatest rewards to those companies providing the supporting service infrastructure. Services to learn about and benefit from cryptocurrency will be at the heart of this latest technology phenomenon.

Nexxus Partners is a services company for the bitcoin and cryptocurrency industry, and is the developer of the Nexxus ecosystem.

Page 1 August 5, 2017

Nexxus University - Knowledge

The Nexxus ecosystem includes the Nexxus University to teach people about the power and potential of cryptocurrency. The Nexxus University cryptocurrency courses are delivered on a professional Learning Management System (LMS) similar to online universities. Each course has multiple lessons with quizzes on each lesson that the student must pass before moving on to the next lesson. Professional printable certificates and exams are also part of the learning experience.

Nexxus University - Cryptocurrency Courses

The comprehensive Nexxus University cryptocurrency courses include:

- 1. Cryptocurrency Enlightenment
- 2. The History of Money
- 3. The Bitcoin Solution
- 4. Cryptocurrency Fundamentals

The courses are very affordable retailing from \$9.95 to \$24.95 each for the student and their immediate family for an entire year.

Nexxus University – Cryptocurrency Certification

Nexxus University offers a certification program for individuals wanting to really dive into the cryptocurrency fountain of knowledge. After they have successfully completed all the Nexxus University courses they can take a 100 question exam to test their cryptocurrency knowledge. If they pass the exam they will be recognized by the Nexxus University as a Certified Cryptocurrency Specialist and can proudly carry the CCS designation on their business cards and display the professional CCS certificate on their wall.

Nexxus University – HandUp Program

Nexxus University wants to share the virtues of cryptocurrency with everyone worldwide regardless of their financial standing. The Nexxus HandUp program works with local community leaders and media to identify candidates for Nexxus University scholarships.

Nexxus Rewards - Utilization

At the heart of the Nexxus ecosystem is the Nexxus Rewards - Global Rewards Community. After someone learns about cryptocurrency from Nexxus University we want them to take full advantage of the benefits of using cryptocurrency.

Nexxus Rewards provides a win-win-win situation for everyone involved including the merchants, shoppers and the Nexxus affiliates. Merchants have a risk-free solution to start

processing cryptocurrency payments and to get and keep new customers. Shoppers collect and redeem cashback reward points from any of the Nexxus Merchants. And Nexxus Affiliates earn nickels, dimes and quarters from every transaction.

Page 2 August 5, 2017

Nexxus Rewards Merchants

Merchants in the local community have a very unique risk-free opportunity to embrace cryptocurrency and to get and keep new customers. Merchants have already proven how hungry they are for new customers by their acceptance of the Groupon proposal that leaves them with very little revenue in hopes of getting new customers.

Merchants pay nothing to join the Nexxus merchant network, they have no long-term contracts to sign, and they have no special hardware or terminals to purchase. It is completely risk-free for the merchants. Merchants pay Nexxus only after they make a sale. And merchants get to choose how much they want to pay. Nexxus only asks merchants to offer a cashback reward to shoppers that they can afford, along with a small 1% - 5% marketing fee for access to the Nexxus mobile marketing system, customer loyalty system, and the Nexxus registered shoppers.

Merchants can use the Nexxus Rewards program for all their customers paying in any currency, not just cryptocurrency.

Nexxus Merchants – Customer Acquisition

Merchants can acquire new shoppers that may not even know they exist. The shopper's mobile app enables them to find merchants in their local area by geography or keyword searching for any product or service.

Merchants can also attract new shoppers by posting promotions in the Nexxus mobile marketing system that are broadcast to the mobile phones of all shoppers in their proximity. This service is completely free to the Nexxus merchants.

Most loyalty programs offered to small businesses focus on the merchant's existing customers and do very little to attract new customers. Nexxus Rewards attracts new customers to the merchant along with keeping existing customers.

Nexxus Merchants – Customer Retention

Nexxus shoppers keep returning to the Nexxus merchants to collect more cashback reward points and to redeem those points. Nexxus merchants benefit from returning shoppers just by being part of the network. Nexxus Merchants also get shoppers from other merchants that are also offering cashback reward points.

Nexxus merchants have the option of offering additional exclusive awards that can only be redeemed by their loyal customers with them. Merchants can define a customer awards program for what ever they want to offer. Some of the most effective award programs are non-monetary recognition-based awards like their picture on the merchant's wall-of-fame.

Nexxus Merchants – Additional Revenue

Nexxus merchants have a very unique opportunity to earn an additional revenue stream on their customer's shopping after they leave their store. Nexxus Rewards has a viral referral program that shares the revenue for customer referrals. When a merchant refers their

Page 3 August 5, 2017

customers to register on Nexxus Rewards, those customers are linked to the merchant. The referred customers also have the opportunity to earn reward points by referring all their friends and family.

The merchant earns an additional revenue stream from all the shopping from any Nexxus merchant by their entire shopper network for an unlimited number of referral levels to infinity. Nexxus pays 10% of the marketing fees to the referring merchant on the entire shopper network. That could easily pay for all the merchant's Nexxus Reward expenses plus more.

Nexxus Merchants – Employee Benefit

Nexxus merchants can offer their employees a Nexxus benefit program that costs the merchant nothing. When the merchant's employees refer customers, friends and family to Nexxus Rewards, they will earn 10% of the marketing fees generated by everyone they personally refer for purchases from any Nexxus merchant.

The Nexxus merchant will have signed up the employee under their referral link so that the merchant earns 10% of the marketing fees generated by the entire infinity shopper network referred by each of their employees.

Nexxus Rewards Shoppers

Shoppers in the local community have a unique opportunity to participate is a shared loyalty rewards program within a network of local merchants. Participation is free and as easy as remembering your phone number after a short registration.

Nexxus shoppers can review the ratings and comments from other shoppers for any merchants they are considering doing business with.

Nexxus Shopper – Cashback Rewards

Nexxus shoppers earn free cashback reward points from all Nexxus merchant purchases. They can keep collecting the reward points and they can redeem them at any Nexxus merchant. The shopper mobile app makes it easy to find Nexxus merchants in their local area and to see how much cashback rewards and other promotions they are offering.

Nexxus Shopper – Referral Rewards

The Nexxus Rewards viral referral program gives reward points to shoppers for sharing the Nexxus Rewards program with associates, friends and family. They will earn 10% of the marketing fees in reward points generated by everyone they personally refer for purchases from any Nexxus merchant.

Nexxus Shopper – Dynamic Rewards

Nexxus shoppers do not need to know anything about cryptocurrency to participate. They can spend any currency, cash or credit cards to earn the Nexxus shared reward points.

They will eventually notice that the value of their saved reward points can increase in value because each reward point is actually a Nexxus token on the open market whose price is

Page 4 August 5, 2017

determined by buyers and sellers. The Nexxus token has a natural price increase from automatic buyer demand created every time the Nexxus reward points are given to shoppers for every transaction in any currency.

Nexxus Shopper – Local Organizations

Local organizations like churches, schools, alumni groups, social groups, sports teams and scouting groups can refer their membership of shoppers. These organizations can create a perpetual fundraiser that pays every week based on shoppers that keep shopping.

Organizations can earn 10% of the marketing fees generated by a network of shoppers for an unlimited level of referrals to infinity. Every shopper can earn cashback reward points for sharing with all their friends and family to create a viral marketing effect. This can create a huge network of shoppers that the organization can earn from every week.

Nexxus Rewards - Barter

The Nexxus Bartering program is for local individuals that would like to get rid of their unwanted or surplus products, or want to promote their personally provided services to other individuals in the local community for cryptocurrency or cash.

Barter listings in all of the hundreds of categories are free and can be enhanced with special highlights and promotions for a small fee.

Nexxus Affiliates - Distribution

Distribution

Nexxus Partners leverages an entrepreneurial sales force to rapidly expand worldwide by offering an income opportunity to independent Nexxus Affiliates. Affiliates can earn lucrative residual sales commissions by marketing the cryptocurrency services of the Nexxus ecosystem.

Nexxus Affiliates desiring management advancement and compensation can promote themselves through their sales production and recruiting. Much like a sales broker opportunity, they can build and lead a team of affiliates from which they can earn override bonuses. Affiliates receive a free affiliate business back-office with a professional marketing system to maximize their potential for success.

Nexxus General Affiliates

All Nexxus Affiliates are qualified to market the Nexxus University cryptocurrency courses and to earn override bonuses from their team of referred affiliates for course sales according to the affiliate compensation plan.

Nexxus Affiliates can join for free and resell courses to earn retail profits. Affiliate can earn up to 500% in retail profits for the Cryptocurrency Enlightenment course that wholesales for \$2.00 or less and retails for \$9.95.

Nexxus Affiliates must be trained and certified to become qualified to market the Nexxus Rewards program to merchants and organizations.

Page 5 August 5, 2017

Nexxus Qualified Affiliates

Nexxus Affiliates are trained and certified to become qualified to market the Nexxus Rewards risk-free solution to merchants to acquire and retain new customers. Qualified Affiliates can earn 20% of the marketing fees generated by all the infinity shopper networks referred by any of their merchants, organizations or themselves.

Qualified Affiliates can also self-promote to a Supervisor, Manager, Director or VP by accumulating the required number of merchants and shoppers, and developing sales leadership. All management positions share in a 100% match of the 20% in marketing fees earned by the referred Affiliate's infinity shopper networks.

Nexxus Token - Currency

The Nexxus Token is a cryptocurrency based on the Ethereum platform that provides a technology layer of security, innovation and interoperability on top of the blockchain technology. The Nexxus token is the internal currency of the Nexxus ecosystem. It is used for the Nexxus cash-back reward points earned from every transaction in any currency. Every transaction drives its automated buyer demand on the open market causing a natural price increase.

Nexxus Crypto-Café - Community

Nexxus is taking cryptocurrency from the virtual world to hometown communities with brickn-mortar cryptocurrency cafes and multi-cryptocurrency ATMs. Worldwide Nexxus Crypto-Cafes will be local community centers for everything cryptocurrency.

Nexxus cafes include business lounges and meeting rooms with food and beverage services similar to a Star Bucks. An ATM is also available for the public to exchange multiple

cryptocurrencies to and from cash. Retail cryptocurrency products will be for sale along with classroom instruction on cryptocurrency for members of the local community. The latest cryptocurrency news, videos and coin prices will be constantly broadcast on several video screens throughout the cafe. Nexxus cafes will provide hospitality services for business and networking groups to meet mornings, afternoons and evenings every day.

Nexxus Crypto-Cafes and ATMs are available for licensed operators worldwide to support the international explosion of cryptocurrency.

Nexxus Partners - Vision

Nexxus sees cryptocurrency transactions surpassing those of Visa and MasterCard someday. The grass-roots movement of cryptocurrency is unstoppable and driven by the people. Millions of people worldwide are already on the cryptocurrency bandwagon with its promise to put the people back in control.

Cryptocurrency knowledge to recognize and be empowered is just the first step to mainstream adoption. Unknown future opportunities will be enabled by the underlying technology to change human culture and create new trillion dollar industries. Cryptocurrency will become part of our local society and as ubiquitous as mobile phones, email and the Internet.

Page 6 August 5, 2017

Nexxus is positioned to be a major provider of the cryptocurrency support service infrastructure. Different cryptocurrency coins will come and go with various user appeal and benefits. Sorting through the daily ups and downs of coin prices is high-risk speculative trading. The real winners will be the service companies supporting the world-wide awareness, recognition, and acceptance and embracing of cryptocurrency.
